Total Records Reviewed to Date: 10,947

Major Categories, with Sub Fields	% of Total	Total Records
<a href="#"><b>Uranium</b></a> , including exploration, mining, markets, acquisitions, mapping, economics, helium-3, fusion research, recovery technology, environmental, mine wastes, and research.	29%	3,175
<a href="#"><b>Mining &amp; Minerals</b></a> , including critical minerals, deep sea mining, gold & silver exploration, off-world exploration, mine wastes.	11%	1,204
<a href="#"><b>Nuclear Power Industry</b></a> , including new construction, SMRs, economics, pros and cons, media bias, energy needs, and competition.	10%	1,095
<a href="#"><b>Astrogeology</b></a> , including asteroids, comets, off-world mining, Lunar, Mars and Venus activities.	9%	985
<a href="#"><b>Rare Earth Elements</b></a> , including exploration, mining, processing, marketing, competition, environmental issues.	6%	657
<a href="#"><b>Hydrogeology &amp; Geology</b></a> , including field methods, remediation, software, and paleontology.	5%	547
<a href="#"><b>Climate Change</b></a> , including carbon sequestration, weather and atmospheric, energy selection, dangers.	5%	545
<a href="#"><b>Health &amp; Safety &amp; Cyber Attacks</b></a> , including field dangers and safe methods, and warning on cyber protection.	4%	438
<a href="#"><b>Renewables Power Industry</b></a> , including <a href="#">solar</a> and <a href="#">wind</a> operation and maintenance, new construction, costs, economics, pros and cons, energy needs and competition.	4%	430
<a href="#"><b>Oil &amp; Natural Gas Industry</b></a> , including exploration, production, environmental impacts, energy competition.	3%	328
<a href="#"><b>Coal Industry</b></a> , including economics, exploration, lignite, graphene, carbon uses, mining, related environmental issues.	2%	219
<a href="#"><b>Biology</b></a> , including biochemistry, bioremediation, and organic chemistry.	2%	215
<a href="#"><b>Professional Societies</b></a> , including publications, memberships, training, and conferences.	2%	210
<a href="#"><b>Geochemistry &amp; Hydrochemistry</b></a> , including field methods, case histories, and classical sources.	1%	110
<a href="#"><b>Geophysics, Environmental &amp; Geotechnical</b></a> , including field methods, case histories, and classical sources.	1%	105
<a href="#"><b>Engineering</b></a> , including remediation, mining estimates, economics, and certification.	1%	101
<a href="#"><b>Environmental Laws and Regulations</b></a> , including federal & state announcements and sources.	<1%	95
<a href="#"><b>Consultants &amp; Vendors</b></a> , specialized geological, geochemical, geophysical, and laboratory services.	<1%	88
<a href="#"><b>Education, Ethics, Society &amp; Employment</b></a> , including training, standards, society issues, and jobs.	<1%	77
<a href="#"><b>Geothermal Energy</b></a> , including exploration, production, environmental impacts, energy competition.	<1%	22
<a href="#"><b>Federal &amp; State Agencies</b></a> , including reports from the USGS, BLM, and DOE, plus regulations.	<1%	15
<a href="#"><b>Risk Assessment</b></a> , including EPA guidance documents, BLM, and DOE case histories.	<1%	8
<a href="#"><b>Toxicology</b></a> , including classical documents, and guidance documents.	<1%	6
<a href="#"><b>General WWW Resources</b></a> , including data bases, and other sources of digital support.	<1%	1
